Instalacija

-*Android IN Processing IDE*-

1.korak

- Java JDK (Oracle-najbolje) - zadnja verzija

  Java SE Development Kit **8u25** za **Win 64**bit

2.korak

http://developer.android.com/sdk/index.html

- Get the SDK for Existing IDE (Zapamtiti PATH !!)
- SDK Development Tools

  - **-Tools** folder-označi Android SDK:
    Tools, Platform-tools,Build tools (zadnja verzija)

  - **-Android 2.3.3.(API 10)** folder-označi SDK Platform

    (Može i Google API)

  - -Win: **Extras** folder-označi Google USB Driver

    (Može i A.Support Repository, A.Support Library,
    Google Play Services,Google Respository)

3.korak

- Download: Processing(IDE) zadnja verzija koja prepoznaje Android Mode:

- https://processing.org/download/?processing

- Pre-Releases: 3.0a4 (12 September 2014) Win 64

4.korak

- Umjesto **Java** Mode, klik: **Android** Mode (desno,gore u Processing IDE)

  (Prvi puta ćemo stisnuti: Install i navesti PATH od SDK Tools koje smo u 2.koraku instalirali)

Pri pokretanju aplikacije:

- Android->SDK

- Android->AVD (Klik na verziju API 10)

- Android->Select Target Device->(Android 2.3.3 (API 10))

- PLAY: Sketch->Run on Emulator

- PLAY: Sketch->Run on Device (Ukljuceno na smartphoneu: Settings>Applications>development->**USB Debugging** i instaliran driver za vaš smartphone ,na računalu)
